About Agility

Founded in 1921, Agility Brazil is the oldest freight forwarder & broker in the market. We are able to offer to our customers the most advanced IT platform that is capable to reduce costs, lead-times and optimize the door-to-door process by giving full visibility of the entire process.

Agility Brazil offers customized and turnkey solutions in freight forwarding, customs brokerage and logistics solutions. We work closely with our customers to navigate the complex documentation challenges of operating in Brazil, ensuring that freight is not stuck at the border and cause costly delays. Operating in all major ports and airports in Brazil, Agility provides logistics services at customer-friendly price points in a wide variety of industries. We have a strong track-record of supporting the complex logistics needs of our customers.

Services

- Air Freight
- Ocean Freight
- Road Freight
- Customs Clearance
- Project Logistics
- VMI

Supporting Our Customers

Vast experience and footprint in the automotive industry

Agility Brazil is one of the main logistics provider in the country for the automotive industry. We count on a very advanced IT platform tracking all shipments automatically as it is connected to all carriers, ports, terminals and trucks to enable our customers to have 365-day, 24/7 real-time visibility. Our product team is engaged to support our operation by providing aggressive pricing and space commitment on airplanes/vessels. Agility's operations team is well-known and recognized as one of the best.

Agility Brazil has developed a unique online tool called ACP (Agility Customer Portal)

This 24/7 web-based tool is capable to monitor our customer's shipments from door to door providing real-time information about each process. The ACP is connected with all carriers (airlines & shipping lines), terminals, ports, truckers, customs and agencies to update the status and support customers to take fast actions when needed.

Supporting our pharmaceutical customers

We have an exclusive and highly-trained staff working under all GDP rules. Our Pharmaceutical Competence Center is ready to provide regular or complex solutions to meet our customer's demands.
